# Get Back to Life...

Millions of people live with acute and chronic pain everyday, affecting their personal and work lives. We believe there is hope and offer a comprehensive approach to managing pain by providing safe, professional and state-of-the-art treatment options to all patients in our care.

It is our belief that most pain can be relieved through a combination of minimally invasive procedures, physical therapy, nutritional guidance, exercise, acupuncture, and medications when necessary.

We pride ourselves on excellence in patient care and customer service. Our staff is experienced and knowledgeable and sensitive to the unique needs of each patient we treat.

## PROCEDURES INCLUDE:

- Epidural Steroid Injections
- Trigger Point Injections
- Facet Joint Injections
- Full Range of Nerve Blocks
- Facet Joint Radiofrequency
- Percutaneous Disc Decompressions
- Spinal Cord Stimulator Implants
- Intrathecal Pump Implants
- Selective Nerve Root Blocks

*...and many more*

## Caring and Compassionate

As board certified anesthesiologists who are fellowship trained and certified in pain management from some of the most prestigious medical institutions in the country, we are committed to providing the highest quality pain management services in our new state-of-the art center.

We look at each patient as an individual and conduct a complete physical exam, review pain history, discuss prior treatments and medications, and recommend the best treatment possible for the particular problem. Our physicians believe the key to pain relief is offering each patient hope and giving them the confidence and peace of mind that there are options to live a pain-free life.
